Team Managers Roles and Responsibilities

Please review the following for minimum expectations and suggested practices for our team managers.

General Overview Roles & Responsibilities

1. Act on the coach's behalf, administratively, with the team parents. The coach and team manager should have excellent communication with each other throughout the season. Communication and unity between both coach and team manager is integral to the success of the team both on and off the field.
2. Maintain the team calendar on SportsEngine of games, practices, tournaments, club events.
3. Communicate regularly with the team about upcoming events. (Once a week is suggested to give an overview of the week.)
4. Create and keep a team folder/binder with all important team information and supplies. (See Fall/Spring Season for complete list of materials below)
5. Manage all game-related needs, such as bringing paperwork, passcards and ref fees, monitoring player RSVP/attendance, communicating field locations/maps/parking, warm-up time, and required uniform, and reporting match results.
6. Help foster team unity and player bonding, e.g., organize a team meal or activities. Delegate organizing the "social activities" to another team parent, if you prefer.
